jan27 E. B. CADY, M. D.

NEW AND VALUABLE DISCOVERY.

Great Improvement in Artificial Teeth.

DR. A. A. KENNICOTT, of Lake street, having purchased ALLEN'S PATENT RIGHT for Cook County, is now prepared to insert Teeth upon this new principle, and warrants perfect satisfaction in every case, or no charge. This invention consists in forming a plate to fit the mouth, and then soldering the teeth to the plate by means of a strong enamel. The teeth are first carefully fitted to the mouth, and then to the plate, and as exact IMITATION OF THE NATURAL GUMS, giving a beautiful appearance, and rendering them perfectly natural. Persons who have lost their teeth can have a full set inserted at a reasonable price. Persons who have teeth that are decayed, can have them filled with gold, platina, or tin, and thereby preserved for years. Also, operations of work at the shortest notice, on other artificial teeth, at the Tremont House. jan27

SOMETHING NEW

A VERY great and decided improvement in the science of Dentistry at Dr. W. H. Rennolds' Dental Rooms, No. 76 Lake st., over Bryan's Jewelry Store. Dr. R. has purchased the right of Allen's Patent, and is prepared to insert Artificial Teeth upon this new principle. This invention, in the entire union or fusion of the plate with the teeth, and the teeth with the gums, renders them perfectly natural in appearance and easily cleaned, do away with the unpleasant clasp, and is decidedly the best method of inserting artificial teeth ever offered to the public. Dr. R. Rennolds has also obtained Dr. Allen's patent and right to manufacture Gold Plate, and is now prepared to furnish the profession with a real improvement to the public. jan27

DENTISTRY.

DR. H. E. KELSEY, Surgeon Dentist, has permanently located in Chicago and vicinity, for the liberal patronage, and respectfully solicits a share of public patronage. Office in the Sherman House, Clark street. jan27

A. McCLURE, CITY SEXTON AND UNDERTAKER, would respectfully inform the citizens of Chicago that he has purchased the entire establishment of Daguerreotype and Ambrotype Likenesses, in all the branches of the art, and will continue to take Likenesses at the Gallery, No. 76 Lake street, as long and favorably known in this community, and will continue the business of the Undertaking department, at No. 96 Lake street.

The undersigned will have on hand at all times, Coffins and Shrouds of every style and finish, and will be prepared with a hearse and everything else in the line of his profession, for such occasions, to attend funerals, and may be found on hand and ready to give prompt attention to the same, at all hours.

He has the exclusive control of the Chapel and Vault in the Cemetery, and will be found constantly in the office connected therewith. jan27

CARDS.

Dr. James J. Wilson,

ECLECTIC PHYSICIAN—Having had a long and active experience in the West, offers his services to the citizens of Chicago and vicinity, confident that his knowledge of the nature and properties of the various remedies employed in the treatment of disease, and his mode of applying them, will enable him to relieve the afflicted and restore the sick to health in a much shorter time than they usually have, and knowing the importance of making a judicious selection of a physician, he would say to the public that he has made himself acquainted with the principles of the Eclectic Practice of Medicine, and is prepared to treat all diseases that are curable by medicine, in accordance with the principles of that practice. He has also had many years experience in the treatment of Chronic diseases, and is prepared to treat them with success. Those who are afflicted with any of the diseases peculiar to females, will find it to their advantage to call on him, as he has had much experience in the treatment of those diseases, and can refer to many who have been restored to health by his treatment, after having been given up by other physicians as incurable. Office and residence on Randolph street, between Clark and Dearborn, one door west of the corner of Dearborn, where he may be found at all times, except when professionally absent. Terms moderate. jan27

DAILY TRIBUNE.

THE DAILY TRIBUNE | EDITION

CHICAGO, THURSDAY, FEBRUARY 3, 53.

☞ The Editors of exchange papers will confer a favor by stating that the Chicago Tribune has commenced the publication of a TRI-WEEKLY.

THE CHICAGO TRI-WEEKLY TRIBUNE is published every Monday, Wednesday and Friday morning, at the office of the DAILY TRIBUNE. It is of the same size with the daily, and contains all the matter of the daily of one week, with the addition of such miscellaneous matter as will be interesting to the country readers. The terms are as follows:

[illegible] to the name of a post in advance.

SUMMARY OF NEWS.

THE INDIANA TRIBUNE GIVES A CONCISE ABSTRACT of the "Case of Mr. Dupont's Speech," in which that functionary is highly extolled. Lord Derby delivered Mr. Disraeli, and after having paid a delicate compliment to the leaders of the American Colonies in 1776, said, that had he lived in those days, he would have been the first to endorse them as rebels, and to brand them as traitors.

THE INAUGURATION OF GEN. ARISTA as President of Mexico, is likely to produce another strife in that country. We have frequently taken occasion to say that time. Arista is the ablest of wives in that unhappy country. If he cannot govern the republic, no human power can. He has all the elements of success in his favor.

THE STEAMER FASHION, CAPT. BAKER, ARRIVED at New Orleans on the 19th inst., having left Tampa Bay on the 16th. General Childs was at that port, also Captain Graham, superintending the engineering party surveying the route for a ship canal. Gen. Blake left Tampa for Fort Meyers on the 17th. Nothing had been heard from the Indians. They have fled to parts unknown.

A TELEGRAPHIC DISPATCH FROM CONCORD, DATED the 27th ult., says:—The rumor that Gen. Pierce has written a cordial letter to Mr. Buchanan, soliciting his nomination of, a member of his cabinet, has been extensively circulated here, stating that Mr. Marcy would be the preference as the New York representative in the Cabinet, has not the least foundation.

TWO GERMAN PAPERS IN PITTSBURGH ARE ENGAGED each other quite lustily. The subject of dispute is whether it is proper to take lunch in the Lager Beer Saloon.

THE QUINCY HERALD SAYS: One or two more accidents yesterday ever known in our city has been going on for the last few weeks in the Methodist Episcopal church under the pastoral charge of Rev. Mr. Pitner. Large numbers have been converted nightly; and the work is still progressing with increased vigor and success.

THE TROY AND SCHENECTADY RAILROAD HAS BEEN purchased by the Hon. E. D. Morgan, President of the Hudson River Railroad Company.

THE IOWA (MICH.) GAZETTE SAYS: "WE EXPECT before to learn that the Oakland and Ottawa Railroad Co., have commenced surveying the route between Pontiac and Fentonville."

THE DISTANCE BETWEEN CLEVELAND AND TOLEDO by railroad is 113 miles, but it takes seven hours to make the trip, while the 280 miles between Detroit and Chicago, by the Central Railroad are run in ten hours, including some fifteen stoppages.

THE BOSTON RAILROAD SYSTEM WAS ADOPTED on the 1st inst. from Buffalo to New York reduced to *five dollars*.

THE DEBATE ON THE SUBS OF TOWNSHIPS was set at Trenton, N. J., on the 26th of January, and had a great debate. Very large delegations were present from all parts of the State. Neal Dow was presented with a splendid silver pitcher, Speeches were made by Messrs. Dow, Jewett, Gough and Cuyler. A grand demonstration was to take place the 27th. A procession was to march to the State House, with an immense police force. Not much talking was to be done.

THE BALLOT FOR U. S. SENATOR, IN MARYLAND on the 27th inst., stood as follows: Reverdy Johnson, 28; Gen. Watkins, 24; Gen. N. Briggs, 4; John Dennis, 1; Whittington, 8; Joseph Gaynell, 1.... The state weather made no manimous.

DEATH HAS AT LENGTH SET A PERIOD TO THE SUFferings of Francisco Madiai, the Florentine, whose melancholy history has afforded themes for newspaper articles and general orations. A suspicion is entertained that the unfortunate man was poisoned.

THE INAUGURATION OF GOVERNOR HICKMAN, of Louisiana, took place on the 20th inst., on his plantation, in the presence of a committee of the Legislature, he being too ill to go to Baton Rouge.

STOCK SCRIP IN CINCINNATI HAS ADVANCED ABOUT Cleveland price. Those in the splendid new Eagle block rent for $800 to $1,000 per annum.

THE STEAMER GRAND CANAL, SO AS TO ENTER THE Lehigh Basin, is going up in New York.

SOME OF OUR PROVINCIAL CONTEMPS. HAVE organized a company for shipping coal from here to Cleveland, by way of the Cleveland and Wellsville road. The coal is sent from here by river to a point near the mouth of Yellow Creek, below Wellsville, where it is shipped on the railroad to Cleveland. The coal is much in market, and we have no doubt that the enterprise will prove a profitable one. Avegetables to have already been made by large capitalists of Pittsburgh to make a depot of Pittsburgh coal in this city.

AN ENGLISH CORRESPONDENT THINKS THAT THE 40,000 killed in battle of this century "is enough for any," and a Western editor replies that every administration is expected to give them all "marching orders."

GOV. EDWARD SAYS JOHN QUINCY ADAMS IS THE real author of the Monroe Doctrine.

TALLOW IS NOT HIGH.—The Herald gives a statement showing that while the average in New York has quadrupled since 1848, the value of vast and populous states has already increased six-fold per cent., and the population has not quite doubled. This fact is causing great dissatisfaction among the owners of property in that great metropolis. The amount of the tax levied on the city last year was $3,360,611 05, and the total valuation of property was $227,244,806 92. The tax in New York is more than half the whole amount of the taxes levied for the expenditure of any State in New England.

HOME DEPARTMENT.—The occasional postponement of the Home Department has been unavoidable, not however, we are happy to say, from any delay in the preparation of the work by the grange Editor, but from lack of room. In the selection of material we necessarily prefer to our readers and not take time and room for the mere entertainment of the paper as a whole. The Newspaper, the news must occupy the first place; and those, with the various matters of present interest, must often take the place of what is perhaps more instructive and to many more readable. To fill into the role of gallantry we will hardly hold, though it would certainly give us pleasure, even here, to give the ladies precedence. We shall constantly endeavor to break in on the regularity and monotony of this important column as seldom as possible.

☞ The New York Journal of Commerce announces the death of Dr. Junius Smith, in consequence of injuries received in the assault made on him by a party of young men on the 31st ult. Dr. Smith was a native of North Carolina, a pious minister of the gospel, having shown that he at that time endured a fracture of the skull. Dr. Smith was one of the earliest and most vigorous friends of trans-Atlantic steam navigation, by having, as early as 1838 urged it. Sensibility and eloquence of the Southern races of his life have been devoted to the improvement of the lot of his race in this country, in which enterprise he died just with a degree of success that fully entitled him, of its promulgation. His death removed from the a vast void to all who knew him.

Lookers-on.

The opposition papers seem to be [illegible] stood at what they style non-[illegible] interference in the making up of Treasurer's Cabinet. If we mistake not a print of this city made a [illegible] gyration on this subject of "foreign interference" on the part of the Whigs. Now we have always supposed that the Whigs had no interest in the Democratic Party, further than a general and [illegible] furniture of the kitchen, as might be excited by a laudable curiosity to see how the [illegible] work, with all its [illegible] and [illegible] laudable concern to see how the country of ours —equally the possession of Whigs and Democrats—was [illegible] and during the next four years. So far from [illegible] we had a perfect right to consider, that it may be [illegible] its be easy, we were [illegible] anderson in Venice, but then, being citizen, [illegible] we looked on with some interest, and discussed with a more critical observation. But it seems that the [illegible] Whigs are to have more to do with the [illegible] administration than they had any idea. Instead of being allowed the right to [illegible] look [illegible] admire, they are to be graded as and [illegible] into the very manufactory of the Cabinet itself. Hear what the *Evening Post* says, which is generally esteemed a Democratic paper—at any rate a very ardent Pierce paper. Its cry is very different from that of our neighbors. It does not assert that the Whigs have nothing to do with the new administration, but that they have altogether too much to do with it. It says in substance the glorious Democratic party already yielded up to the embraces of federalism, and with one weak cry of bitter despair it resigns the hard won trophies of the last election into the hands of the vanquished. [illegible] disconcerts the disappointed *Post*:

"We learn that the President elect is to have if he has not yet had, the warning that no man of the north can [illegible] of the Cabinet for a cabinet appointment, who cannot stand the new test—that is prove himself to have been a compromiser. Failing to do this he is unqualified a free-soiler, abolitionist, [illegible] or, in a word, nay-saying—the test damning all opposed to it, opposed to the Union. The result of this doctrine, if applied to both sections of the country, would be to make a distinct exclusive party of the north, and a distinct exclusive party of the south. It will be found to [illegible] of slavery [illegible] in that case the [illegible] of the Democratic party would be [illegible] of the Democratic party would be [illegible] of the Democratic party would be

DAILY TRIBUNE.

LOCAL MATTERS.

JOB PRINTING.

We would remind our friends, and the public, that we are ready to do all kinds of JOB PRINTING at a short notice. Our material is entirely new, and embraces the

latest styles of Types,

which will be added to the Counting Room, on the ground floor, and close to the Post Office, will be promptly attended to

☞ Y. B. PALMER, the Agricultural Newspaper Agent in the only authorized Agent for the paper, in the cities of Buffalo, New York and Philadelphia. Subscriptions will be taken for advertising and subscription at the following rates, viz: The regular rates of the Agricultural Advocate. His Office are—BUFFALO, Exchange Building, corner of Main and Exchange streets. NEW YORK, Tribune Building, corner of Nassau and Spruce streets.

☞ If any one fails once to receive his morning paper, we wish he would drop in at our Office and say so.

☞ Advertisements of Banks and Insurance will be found on 1st page, ninth column.

COMMERCIAL.

WEEKLY REVIEW of the CHICAGO MARKET

OFFICE OF THE CHICAGO DAILY TRIBUNE, Thursday Morning, Feb. 3—P. M.

The receipts of Produce and Pork, during the last seven days, have not been large. Flour has continued to sell, in small lots, to supply an active city consumption, at the advanced last week. Wheat, however, has continued to advance, and has reached a point below any figures during the past three months. Within the last twenty days, the decline on spring last was from 25 to 15 cents—a circumstance almost without parallel in the history of our market. Winter did not go down so much, but still it depreciated to the extent of seven to nine cents. The result is an illustration of the adage in relation to embryos. Two weeks ago, there was a small supply coming forward, and in addition to the competition which had been for several weeks growing between our millers and warehouse dealers, the agents of Michigan mills came into the market, and bought, with reckless indiscrimination, and gave the market an advance. This lasted for only a few days. Large receipts came forward, to be closed out at the high prices offered. Warehouse dealers stopped buying, the agents of the Michigan mills obtained the amount they wanted, and also withdrew. Following this, the European news was unfavorable, which made city millers cautious, and all of these things ranging together, prices went down with a run. Within nine days the depreciation was as above stated. At this time, the market continues dull, but no receipts have been materially checked, there is a strong indisposition on the part of holders to accede to present rates, and some prefer to store on their own account. Warehouses have also commenced buying, and the market presents a somewhat better appearance. Corn has also declined—the demand for distilling purposes being in a great degree supplied,—and the market is now lazy. There is no demand for store, and the market is entirely in the hands of distillers. Rye is unassisted without change. There is very little coming forward.—*Barley* is again in better request, and sales show an advance. The price of the sales yesterday, however, is not the best, as there being none going into store. The continuance of present rates of shipping may change this contingency, the matter is unsettled and precarious.—Oats remain steady, without any fluctuations. The receipts have been steady and liberal, and are taken readily at the highest figures offered under the close of navig ion. It is about the only staple that has maintained a steady advance.

The Provision trade is dull. Dressed Hogs continue to come forward, in small lots, and are taken quickly for packing and family use. The packing season may be said to be closed, though two or three are still engaged in closing up—The total number packed here this year will amount to over 70,000, which is 20 per cent advance on the number of last season.—Mess Pork rules steady at previous quotations. Beef do, with small local demand.—*Butter* is again somewhat depressed, and there is very little demand except for the local trade.—*Eggs* are dull. There is some demand for fresh lots, but old are unsaleable.—Potatoes are in good supply, and dull.

We notice sales, and the state of the market as follows:—

FLOUR.—City Mills brands are in steady demand at $4.25 @4.50, which is full 25 cents reduction on July. Michigan is selling steadily at $4.75@5.00, wholesale and retail; but 121 tons spring wheat brands, $4@4.25; do do winter wheat do at $4.75@5.00.

WHEAT.—Sales of 5,000 bushels spring and winter, in lots, from store and railroad, at 69@70 for spring, and 74@76 for winter.

CORN.—New shelled selling slowly at 41@42 ₱ bu of 56 lbs. New ear corn at 35@36 ₱ 70 lbs. Sales of about 30 bu shelled, and none of ear.

RYE—No sales, but there is inquiry at the 9 ₱ bu.

BARLEY—Sales of 200 bushels choice lot, at 58c. There is some damaged and indifferent offering which is dull at 40@45. The range of the market may be quoted at 40@58c, with a small demand.

OATS—Sales embrace several thousand bushels in store, during the last two days, at 19@20c. Market steady and firm.

SEED.—*For Flax*, City Oil Mills continue to give 81 ₱ bu for good prime lots but there is some coming forward, from time to time, which is of a different character, and is dull at 75@80c ₱ bu. Timothy is in request, and good clear lots readily bring $1.87 ₱ bu.

HOGS.—Small numbers continue to be offered at the depot, and sales are quick at 40,75@4.85.—mostly to families. The market is firm.

PROVISIONS.—Mess Pork is steady at 10@10 ₱ bbl, with small sales. Mess Beef do at $10,50 for coupons, $11 for trade, and $12 for extra.

BUTTER.—Sales of small lots of fair to choice and well at 13@ 14c. Some small lots of choice roll have been made at 15c, but these are above the market.

LARD.—The local demand is not large, but prices rule steady at 6@6½c for kegs. Small lots of country sell more frequently go as low as 5@5½c.

CHEESE.—The market is quiet, with sales of W. R. at 8@ 9c; Hamilton, 7@8c, and common country at 7c.

POTATOES.—Receipts by railroad and team during the past week, were large, and prices declined somewhat. Sales made at store, with occasional sales of 250@.

PIGS.—Whitefish is improved, and holders are now asking an advance of 25@ 9 half bbl for prime and choice quantities. Sales of 100 half bbls Mackerel, Shad, No. 2, at $6; do No. 3, at $5.50@5.75. Half bbls. No. 1, $7.50@7.75; No. 2, $6.50@6.75. Cod fish at $4.75 ₱ 100 lbs.

HIDES.—Cod lots are heavy on the market, and no buyers at 3½ ₱ dos. Fresh lots are in request at 4½@5c in small quantities.

POULTRY.—There is a fair demand for dressed Chickens and the market is quick at 3½@4c each. Turkies are not much sought for, and are heavy at 6½@6¾ ₱ lb. Prairie Chickens, which are brought in occasional, at 25c each. Ducks, at by dozen at 75@1.00. Quails sell at 31@37½ ₱ dozen.

CHICKENS.—There has been a small supply, but not much better than is usual at this season of the year. We make quotations of sales as follows:—Sugar, N. O., in hhds, 6½@ 6¾c; do in barrels, 6¾@7c; do coffee, 7@7½c; clarified, 7½@8c; loaf, 9½@9½; powdered and pulverized, do do.

SPIRITS.—Highwines, 24@25c ₱ gallon; Whiskey, common country and city brands, 16@18c. Cousin's Ohio, 20c. Trade moderate.

HARDWARE.—The price of nearly every kind of Iron has advanced from 10 to twenty per cent, within the last two days, and the market. To give dealers an understanding of the state of this department of trade we submit the following statement, which will show the present cost in New York, as laid down in Chicago, and selling prices:

Description.	Cost in New York.	Cost in Chicago.	Selling Price.

FEATHERS.—None on the market. Fair to good qualities would readily command 45@50c.

ASHES.—Pearls, 9 ton, @10; Pots @9.

SALT.—There is a very small inquiry, but holders are very firm at $1.12 ₱ bbl for fine, and $1 for G. A. and $7 bag for dairy.

COAL.—Rio is steady, the retail rates being $7 ₱ ton—Lykens Valley, $8 ton delivered.

In other matters, nothing of particular moment transpiring.

Ayer's Cherry Pectoral.

FOR THE CURE OF

COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING COUGH, INFLUENZA AND CONSUMPTION.

Many years of trial, instead of impairing the public confidence in the virtues of this preparation, has only served to establish it upon a firmer basis, and to give it a superiority and extraordinary influence over the diseases of the most sensitive importance to the human race, which it is unnecessary for us to enumerate to our friends. Nothing but its intrinsic value could have produced the cures it has effected over the thousands of suffering victims in every section of our country, and the unsolicited testimonials of which we have constantly on file, could originate and maintain its reputation it enjoys. While many inferior remedies thrust upon the community, have failed and been discarded, this has gained friends by every trial, confirmed beyond doubt the affidavit they can never forget, and produced cures too numerous and too remarkable to be forgotten.

While it is a cause of no public to pretend that any one medicine will infallibly cure—still there is abundant proof that the Cherry Pectoral does not only on a general thing, but more certainly than any other medicine for which, it is employed.

As time makes these facts wider and better known, the confidence has gradually become the best reliance of the afflicted, from the log cabin of the American peasant, to the palaces of European kings. Throughout the entire country, in every state, city, and indeed almost every hamlet it contains, CHERRY PECTORAL is known as the best remedy extant for diseases of the Throat and Lungs, and in many foreign countries, it is coming to be extensively used by their most intelligent Physicians. In Great Britain, France and Germany, where its excellent qualities are vouched for by scientific men, and its composition, Chemist, is introduced, and its commended to the Asculapian Faculty. Also Rome, Public Institutions, and the Army and Navy of Europe, have found their attending Physicians employ for the more desperate diseases of the lungs. Call for its cures, and for children, it is safe, though, and effectual to cure. In fact, some of the most startling testimonials we receive, have been from persons who have found its efficacious in most particularly incidental to childhood.

The Cherry Pectoral is not advertised by a Practical Chemist, and every ounce of it is made by his own eye, with invisible accuracy and care. It is active and protected up by Science, and can be relied on as pure, without adulteration.

We have endeavored here, to furnish the community with a remedy which we believe to be the best that can be obtained, and commend itself to their confidence, by its purity, accuracy and efficacy, which this long experience and observation have given it. Of itself to be, and it will be, every case can be, asserting it with chemical accuracy, of the highest strength to effect the cures we ever done. We have no secret power, no Secret Statements over Agent, on which we depend for our sales. We tell the people what it is, and what it does, and we ask them if that medicine can do. Prepared and sold by

JAMES C. AYER,

Practical and Analytical Chemist, Lowell, Mass.

And sold by all druggists in Chicago, by J. S. HOYT & CO., and by the druggists generally throughout the surrounding country. 1y17
